

VIJAYA CHANDRA JONNADULA

UX/UI Designer | Product Designer | Interaction Designer | Design Systems | AI-Enabled Product Delivery

Hyderabad, India | vijayachandrajonnadula@gmail.com | +91 8919478935

Portfolio: <https://vijaya-chandra.vercel.app>

PROFESSIONAL SUMMARY

UX/UI Designer and Product Designer with 5+ years of overall experience across interaction design, product design, design systems, prototyping, and cross-functional product delivery. Experienced in designing admin portals, scheduling workflows, chat experiences, form completion flows, dashboards, data-heavy interfaces, and responsive web/mobile experiences. Combines design craft with an engineering mindset, strong attention to detail, and practical knowledge of AI-enabled workflows, GitHub PRs, CI checks, staging, and production handoff.

CORE SKILLS

UX/UI & Product Design: User flows, information architecture, journey mapping, wireframes, interaction design, rapid prototyping, responsive design, visual design

Research & Strategy: Contextual enquiry, user interviews, stakeholder workshops, personas, scenarios, usability testing, design critique, product thinking

Design Systems: Reusable components, design tokens, layout systems, typography, accessibility, UI states, handoff specifications

AI Enablement: Claude, Codex, Cline, Roo Code, AI-assisted design/development workflows, prompt documentation, PR-ready product delivery process

Tools: Figma, Miro, Adobe Illustrator, Adobe Photoshop, Adobe XD, Adobe InDesign, Notion, Microsoft Excel, Adobe Acrobat

Technical Awareness: HTML, CSS, JavaScript basics, Python, Java, C, Git, GitHub, CI checks, staging/production workflow, frontend collaboration

WORK EXPERIENCE

ZoomInfo | UX/UI Designer - I | Chennai, India | Aug 2022 - Present

- Design user experiences and interfaces across 4+ major product areas, including Admin Portal, Schedule, ZI Chat, and FormComplete.
- Create and refine user flows, information architecture, wireframes, high-fidelity UI screens, prototypes, and interaction patterns for complex product workflows.
- Partner with product managers, engineers, researchers, and business stakeholders to translate requirements into clear, usable, implementation-ready product experiences.
- Contribute to design systems by standardising reusable components, layout patterns, UI states, and design tokens to improve consistency across product surfaces.
- Work closely with frontend developers to clarify handoff details, reduce UI inconsistencies, review implementation quality, and support release-ready product delivery.
- For the past year, contributed to the AI Enablement team, helping train and guide team members on end-to-end AI-assisted workflows for faster product delivery.
- Document AI-enabled design and build processes using structured prompts, specifications, acceptance criteria, PR workflows, CI checks, and staging/production handoff practices.
- Support teams in using Claude, Codex, Cline, and Roo Code responsibly to accelerate research, UX critique, design documentation, implementation planning, and product iteration.

CredAvenue | Product Designer Consultant | Chennai, India | Oct 2021 - Jul 2022

- Worked as a full-stack Product Design Consultant across web, desktop, and mobile experiences, supporting product discovery through interface design.
- Defined user experiences through user flows, information architecture, sketches, wireframes, prototypes, visual design, and stakeholder collaboration.
- Collaborated with business experts and product stakeholders to translate business goals into practical, user-centred product experiences.
- Supported design research, usability testing, design-system consistency, and developer collaboration to reduce product and integration inconsistencies.

Amigos Arts | Founder / Product Designer / Illustrator | Hyderabad, India | Jan 2020 - Oct 2021

- Founded and managed a creative design organisation delivering product design, graphic design, websites, applications, logos, brochures, posters, and vector illustrations for clients.
- Led project planning, client communication, visual design, and illustration work from concept to final delivery.
- Designed Service, a mobile servicing application concept for a local vehicle servicing firm, from early ideation through user interface design.

Helping Hands | Design Lead | Nuzvid, India | Jul 2017 - Mar 2020

- Led design activities for a student initiative at RGUKT Nuzvid, supporting communication design, event visuals, posters, campaigns, and service-oriented activities.
- Created visual materials that supported student outreach, volunteering, fundraising, and community support programmes.

EDUCATION

RGUKT - IIIT | B.Tech, Electronics and Communications Engineering | Nuzvid, India | Aug 2017 - Jul 2021

Completed undergraduate studies with exposure to Python, C, HTML, CSS, Java, machine learning concepts, and experimental technical projects.

RGUKT - IIIT | Pre-University Course | Nuzvid, India | Aug 2015 - May 2017

Studied foundational programming and scripting languages including Python, C, HTML, and CSS.

CERTIFICATIONS

- Google Professional UX Design Certificate | Mar 2021 - Sep 2021
- CalArts UI/UX Specialisation | Oct 2020 - Feb 2021

ADDITIONAL STRENGTHS

- Strong creative background in illustration, vector artwork, UI graphics, character design, and visual storytelling.
- Comfortable working across ambiguity, cross-functional feedback, stakeholder expectations, and iterative product improvement cycles.
- Able to connect UX thinking with implementation realities, including component reuse, responsive behaviour, PR review, CI checks, and release workflows.
